

# Sophos Home Premium

Because the Clinical School Computing Service uses Sophos Endpoint Protection on our work computers, the Home Premium package is available free to home or personal kit to people with @medschl or @slcu email addresses.

Register for access:

1. Visit <https://home.sophos.com/employee>
2. Use your work email address (slcu and medschl email addresses only) to verify your eligibility. NOTE: Your personal email address is to be used later for registration.
3. You will receive an email with a unique coupon code and asking you to register for a Sophos account. During registration, please ensure the accuracy of your personal email as coupon codes are single-use.
4. Follow the directions to register
5. Download the software and install it. This can be installed on up to 10 personal Windows and Mac devices.

For information and help:
