

Connecting to Network Drives from a CSCS Managed Device

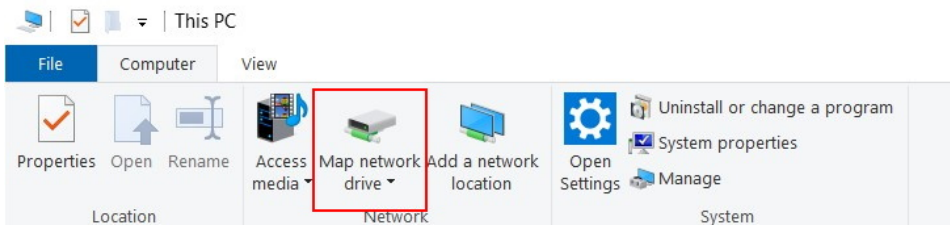

Redirection Notice

This page will redirect to <https://cscs-itsupport.atlassian.net/wiki/spaces/FAQ/pages/21364897/Connecting+to+Network+Drives+from+a+CSCS+Managed+Device> in about 5 seconds.

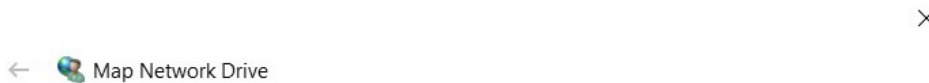

This page has instructions on how to map a network drive to the Hutch Servers (e.g. Minerva, Borr, etc.) from a CSCS Managed Device.

Method

1. Ensure you are either connected to the Hutchison or Clinical School network, or are connected to the VPN.
2. Open Windows Explorer and browse to "This PC"
3. Click on "Map Network Drive" (you may have to click on the "Computer" tab if it is hidden):

4. In the window that opens, ensure the "Reconnect at sign-in" and "Connect using different credentials" boxes are both ticked. Enter the path to the share (including ".hutchison-mrc.cam.ac.uk" after the name - e.g. "\\minerva.hutchison-mrc.cam.ac.uk\Centre") and then click Finish:

What network folder would you like to map?

Specify the drive letter for the connection and the folder that you want to connect to:

Drive:

Folder:

Example: \\server\share

Reconnect at sign-in

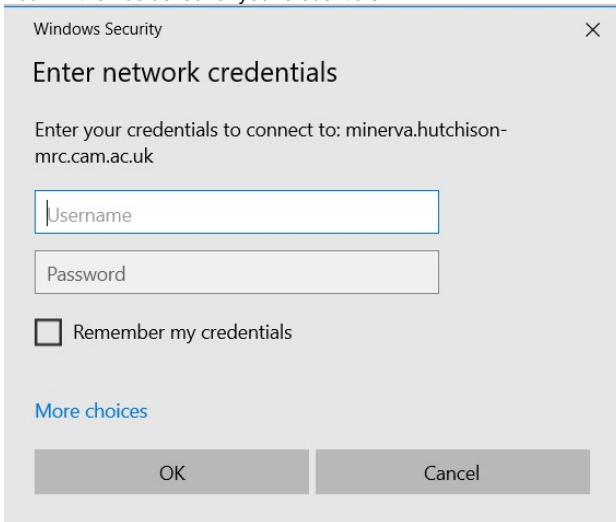

Connect using different credentials

[Connect to a website that you can use to store your documents and pictures.](#)

Finish

Cancel

5. You will then be asked for your credentials:

Windows Security

Enter network credentials

Enter your credentials to connect to: minerva.hutchison-mrc.cam.ac.uk

Username

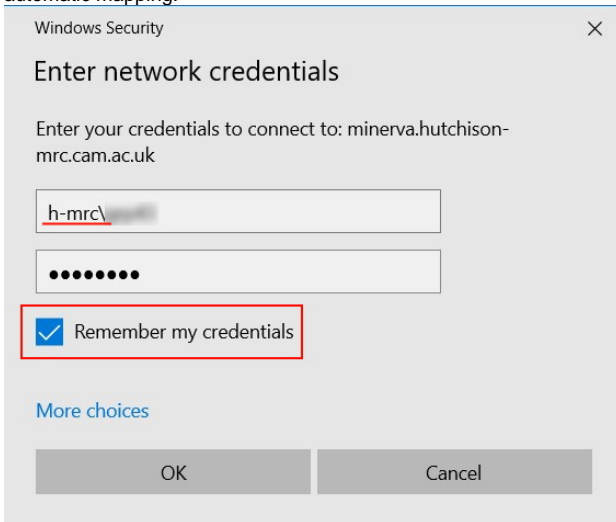

Password

Remember my credentials

[More choices](#)

OK Cancel

6. You need to enter "h-mrc\" followed by your CRSID and your Hutchison password. Tick the "Remember my credentials" box to save them for the automatic mapping:

Windows Security

Enter network credentials

Enter your credentials to connect to: minerva.hutchison-mrc.cam.ac.uk

h-mrc\

.....

Remember my credentials

[More choices](#)

OK Cancel

7. Click on "OK" and then after a few seconds a window will pop up showing the mapped drive.
